Background

- Since 2002, the Continuing Education Centres of the Swiss Universities and Federal Institutes of Technology have contributed to setting up university continuing education in conjunction with the former Rectors' Conference of the Swiss Universities (CRUS) presently Swissuniversities, the umbrella organisation of the Swiss Universities.
- Each Continuing Education Centre of the Swiss University and Federal Institute of Technology, as well as the University of Liechtenstein are members of the association (12 members). Swissuniversities.ch and a neighbour german university are invited members.

Focus

Swissuni promotes University Continuing Education through in particular:

- Promoting university continuing education
- Supporting the development of LLL
- Defining a continuing education policy and strategies
- Producing position papers on UCE policies and specific topics
- Promoting quality development
- Sharing information and best practice
- Setting up joint projects and innovative programmes
- Promoting collaboration among continuing education of Swiss Universities as well as with other institutions at both a national and international level
- Collaborating with Swissuniversities, the umbrella organisation of the Swiss Universities
